Subject: Maths (division) Year/Subject:  
RE

Mentor

Teacher/Supervisor: Antoinette

**Commendations:**

Suzi your lessons are always interesting with lots of variety of activities for the chn - it's great that you try to make sure the chn are 'moving' so as to keep interested.

Division lesson was great - from 'hands on' to discussion/generalizations and role play.

**Recommendations:**

- monitor all chn - sometimes 'some' seemed to lose interest and distract others.
- don't move on until all chn are attentive.
- time management.

You're doing a great job Suzi! Just be aware of these and with practice these will be refined!

**Overall impression:**

Your motivation and concern for the chn. is to be commended. Your feedback is quite positive

You are very respectful of them (and they love you!)

Just remember to always be consistent with your discipline.

Well done!

RE lesson was quick and to the point!
